

# Attention:

# Grant Recipients!

---

As part of your Riverwatch grant, you are required to submit 2 items:

1. water monitoring data
2. quarterly grant reports.

These are two separate and distinct items.

This is your packet of 8 quarterly reports. These reports must be submitted to us each quarter, irregardless of whether you monitored your stream during the previous 3 months or not. We ask that you record all the ways you used the equipment – monitoring, education, demonstration, practice, etc. If the equipment was not used at all, just write "no activity" and send the form to us.

These quarterly reports are required in addition to data submission online at [www.HoosierRiverwatch.com](http://www.HoosierRiverwatch.com)

We hope to have these grant reports available for submission online by the time your first report is due – it will be available at [www.in.gov/dnr/soilcons/riverwatch](http://www.in.gov/dnr/soilcons/riverwatch)

**The bottom line is this: You do not need to monitor every quarter, but you do need to submit a grant report every quarter!**
